- Current density
- 1.5A/cm²
- Use a press
- The press (face size) depends on
  - Current limited in H, or P-plia
  - P-hinge separate in N-type
  - Need to supply holes (electrical)
  - 49.9% HP = 0.0187 l/hr

- Porous silica
- Porous silica
- Need to keep back side dry.
- Need to soak to solder
- P-h hinge, across base in electrical part of shop
- Need great统计局
- EP pipe edges a lot. 10% to 10% of race in hydrocarbon debris w/ high pas
- Pegon "etch" step
